

Bridging The Gap

Position Description

Job title	<i>Home Water & Energy Efficiency Community Specialist</i>
Reports to	<i>Water & Energy Efficiency Program Manager</i>
Status	<i>Nonexempt</i>

Job Purpose

The primary purpose and function of this position is to enable Kansas City, Missouri, homeowners and renters to reduce their water and energy usage and billing by installing water and energy conserving devices in their residences and educating them about behaviors and practices that can help keep water bills low. This position will also conduct visual inspections of basements and residential plumbing systems to identify homes that may be eligible to participate in a toilet replacement, complex leak repair, and/or rim joist insulation programs.

Job Responsibilities:

Primary Duties and Responsibilities

- Engage, educate, and advise residents about water and energy conservation.
- Schedule in-home meetings with customers.
- Assess the customer's understanding of water consumption and the resulting financial impact on the household.
- Discuss the water and energy conservation devices that will be installed and the impact they will have in reducing water consumption.
- Participate in and organize community outreach events.

Install water and energy conservation kits

- Install simple conservation devices.
- Inspect installation to make sure devices are working properly and not leaking.
- Demonstrate devices to customers and ask if there are any questions.

Identify homes for participation in toilet replacement, complex leak repair, or rim joist insulation programs.

- Identify any pre-1994 toilets in owner-occupied homes and refer them to the Water & Energy Efficiency program manager to assess eligibility for participation in toilet replacement program.
- Conduct a visual inspection of walls and floors in kitchens, bathrooms, laundry rooms, and around utility sinks. Also, where possible, inspect basements and any other areas where water supply lines are visible. Where there are visible leaks, unexpected damp areas, mold, or other signs of water damage or intrusion, refer Water & Energy Efficiency program manager to assess eligibility for participation in the complex leak repair program.
- Collect information needed and do a visual inspection of the rim joists to assess eligibility for participation in Energy Efficient Homes rim joist insulation program.

Record and report data related to home visits and work performed

- Complete home visit report before leaving each customer's home. The report will include data regarding the number of devices replaced, informational materials left with the

customers, and notes regarding the need for toilet replacement, complex leak repair, and/or rim joist insulation.

- Ensure that all needed documentation is present through job completion and accurately entered into necessary databases.
- As requested by the program manager, participate in team meetings to discuss progress toward program goals and address quality-of-service issues as they arise.

Other job-related duties as requested and subject to reasonable accommodation.

Qualifications

- High school diploma, GED or HiSET, or currently working toward HSE.
- Experience working and communicating with people from diverse backgrounds.
- Background in community engagement, non-profit or related field.
- Must have aptitude for making accurate assessments of customer needs and the ability to handle the stress of working with people in crisis.
- Demonstrated ability to motivate and encourage people.
- Strong problem-solving and customer service skills.
- Experience using computers; knowledge of Microsoft Office applications is preferred.
- Valid driver's license and good driving record.
- Candidates will be subject to a background check.

Working Conditions and Physical Requirements

The position generally works 8:00 a.m. to 5:00 p.m. Monday through Friday. The Home Water and Energy Efficiency Community Specialist will work in the field 75-90 percent of the time. This time will be spent educating residents, installing conservation devices, and performing visual inspections in private residences. The remaining 10-25 percent of the Specialist's time will be spent in an office setting completing desk work and participating in meetings. Some evening and weekend hours may be required.

Major physical activities and requirements used in this position include:

- Remaining upright on feet, particularly for sustained periods of time with frequent squatting and bending. Must be able to walk around to accomplish work.
- Light work: Exerting up to 25 pounds of force occasionally, and/or up to 10 pounds of force constantly to move objects.
- Operating a motor vehicle.
- Withstanding extreme weather conditions for prolonged periods of time.

Positions Supervised

None

Salary & Benefits

Benefits include 90% of health, dental, vision, and life insurance, and 100% disability insurance. We offer a competitive vacation and sick leave policy, paid holidays including the week between December 24th and New Year's Day but may be adjusted to meet your cultural or religious preferences, supportive team atmosphere, some schedule flexibility, and a dog-friendly office.

Starting pay for this position is \$19 per hour. Full-time hires will work 40 hours per week.

Bridging The Gap is an equal opportunity employer and understands the value of having a team with a diversity of experiences and perspectives to optimize our potential for compassion, collaboration, creativity, and excellence in service. BTG encourages people from all backgrounds to apply.
